

CREATIVE PIZZA OVENS

— EST 2018 —

MATERIAL & PRODUCT PRICE LIST

Not only do we sell our own DIY Kits but we can also offer great quality refractory materials for your custom projects and a range of products to enhance your cooking.

We have refractory materials for a variety of applications including fire bricks, insulation materials and refractory cements & mortars. It is essential that the correct materials are used during any pizza oven construction, so please don't hesitate to ask us about how we can help.
